

# SEEN HEARD & TOLD BY THE EDITOR

We cannot but speak the things which we have seen and heard. Acts 4:20

While I was off playing dominoes Wednesday afternoon, instead of going fishing, Mabel wrote me a note about Fred Bailey's brother William from the swamp at Inverness came around to see me Saturday afternoon. Sorry I missed him, but guess I was down on Tippecanoe.

Assistant Postmaster Dave Taylor told me that his boy, Major D. M. Taylor, Jr., had returned to the States from Korea, but was now with his old lady out in Texas somewhere.

One of Clayton Carpenter's main colored hands, Bohannon Kincaid, has been reading about our dire plight, so came in, somewhat belatedly, and paid his dues. He, Andrew and I went to fishing at White Lake after we put the GCW to bed last Thursday. Bo' has a bunch of kids just like their papa.

I was asking High Pockets the other day whether he would rather have a bicycle, police car (like his substitute had), motor cycle or scooter to go around and rob parking meters. He said he would like to have a scooter like Turner Bailey had.

That legal notice about expanding the space for city school plant is as long as what they call a who's who, but we are not kicking, as yet so much a word for publishing it. Don't forget to read every line of it.

I not only had the pleasure of seeing God's Country, out about Sabogla, with J. Z. Pryor, but got a renewal from A. C. Black who lives there.

Our free-state subscriber, Mrs. (cousin) Harriett Whitaker, sent in her dues not long ago.

Jesse Lott of Holcomb has been placed on what we call our probation list. You know, fool along with them a while, then cut 'em off if they don't pay.

Garner Menders, an old Grenada citizen, now living down on the Harrison County Gold Coast, sent in his dues not too long ago. I heard that the Garner's brother, likely will be back in Grenada shortly.

One of my old Osberry friends, Luther Harris, almost forgot us, but it finally came to him about his dues being due.

But the charter member that was really up to snuff in renewing was Earl Burkley, who was not due until August.

Bolling down what Mr. Tutor of Grenada Farms told me about local milk: the Miss standard is 3.5 butter fat, the U. S. Public Health Service standard is 3.25 percent; his standard quality and that of all the bottlers he knew of in 26 northwest Miss counties (including Mr. Quinn) is 4.0 percent.

The bond issue for the hooley mill the 6th such issue that Grenada people have voted, and in every case almost overwhelmingly. No wonder John Lake, the owner, officers and employees are elated.

Milt, Patty and the 2 young Percivals report a grand time spent camping up in Ontario. Aint it grand

Grenada folks are pulling for Don de Jean, the Sharp's lovely daughter and, at the same time, are commiserating with the Pierces' over the untimely loss of their lovely young daughter.

Folks are also pulling for John Hixby.

Let's not forget James Purdie who not only paid up for himself, but also for his sister, Mrs. C. B. Roper in Jackson.

Coming up at Grenada Theatre for the Sunday night preview and Tuesday and Wednesday is a much advertised picture, "African Queen."

## J. Z. Pryor Takes Editor To "God's Country"

J. Z. Pryor has been telling me for a good while that he wanted to take me out to what he calls "God's Country" and, after he got a Cadillac car, I consented to accompany him.

God's Country, according to his idea, is that fine country on Sabogla Creek. Now, to the uninitiated, let me say that Sabogla Creek is one of the biggest tributaries of Yalobusha River and the creek runs into the river close to where Grenada County and Calhoun County meet.

Sabogla village is located on the high lands on the east side of the creek and that's where Mr. Pryor's old home is located and much of his fine land can be seen from his old home.

After going out there with him and riding around his place a la Cadillac, I am bound to say that it is a fine farming country, and the crops ARE excellent. I am not in a position to say that it is God's Country, but it is a very fine country, one that is good to look at, one that's fine to be in and hear about, as I did one afternoon last week.

Nor is Sabogla Creek, the ONLY fine creek bottom that enters Yalobusha River East of Grenada. There is Redgrass and Buckputter, Horsepen (big and little) and many other streams, both big and little, but all fertile.

Mr. Black, one of our heretofore unknown subscribers, lives in the Pryor old home, owns some of the former Pryor lands (which he paid for during the depression, by the way), and rents a heap of the rest of it. There is a lotta Blacks out in that section. One way or another each Black has received a college education. The Black I saw is a graduate of W & L U. in Lexington, Va.

In our own county of Grenada, I have seen little cotton as good as that I saw around Sabogla, and none better than I saw there. If they had any good corn, it was not to be seen alongside the roads. That section seems now to be wedded to cotton.

Alongside the highway, as we drove along, and at the home of Brother Black, many names, reminiscent of old times came up: the Davis family, Captain Jack Williams, Capt. Provine, many Shaws, Mallories and Ligans, also Pryors and Pass's, Over in our county, James Keeton, Bert Willis, Stark and Lewis, Gillions, Chamberlains, Trussells, Knox, Majet and, of course, many more names identified with that section.

One of Gaston Williams' boys now runs the Pass Island Store and he had a number of stone implements used by the Indians of that section. He had plowed them up or dug them up from parts of Pass Island, Charles Ligon, a descendant of the 1st Ligon of Grenada County was loafing at the store, though he don't seem to loaf much. I don't know whether Pass Island got its name from Bill Pass, or Algeron Pass, but from one of them, possibly their father. Both gentlemen mentioned were identified with oldtime Grenada. There was a big merchant here with a store just west of Spotless, Col. Algeron Pass was a big landowner and was Bogus.

Whether the government ruined more land along this once fine Yalobusha Valley by making a lake of it than it saved below Grenada Dam is something that only the future will disclose. Since the writer is one of those who does not believe that monkeying with God's water EVER is a permanent success, he is not an unbiased witness in this determination. Certainly the Yalobusha River Valley east of Grenada and up to and including parts of Calhoun Co has a very "abandoned" look.

## Austin McCaslin Drowns In Kentucky Lake

Grenadians were shocked and saddened over the weekend to learn of the tragic death by drowning of Austin M. McCaslin of Eupora, whose family has long been prominent and well thought of in Grenada County.

Mr. McCaslin, 45, was born in Grenada to Mrs. A. J. McCaslin and the late Mr. McCaslin. He graduated from Grenada High School. His body was found floating in Kentucky Lake, near Waverly, Tenn. Wednesday, July 8 and for a time he was unidentified. The identification was finally made by E. E. Coleman, Eupora city marshal Saturday morning after his body had been exhumed. It had been buried Thursday.

Mystery surrounds his death. His wallet was missing and his family said that he usually carried several hundred dollars with him. The possibility of murder is being studied.

## 198 Pounds Of Sailfish

While on a trip to Acapulco, Mexico, Mr. and Mrs. Benton Keeton caught some monstrously large sail fish.

### Attorney General Coleman Delivers Main Address at Walnut School

MARKS—A crowd of approximately 350 heard Attorney-General J. P. Coleman and others prominent in civic and business affairs speak at a rural telephone celebration at the Walnut Consolidated High School near here on Thursday.

The celebration marked the completion by the Southern Bell Telephone and Telegraph Company of a new rural telephone project to serve approximately 100 farm homes and business establishments in communities of Walnut, Shine, Turner, Denton and Longstreet in southern Quitman County. Additional telephones are also provided for the town of Crowder and the surrounding area.

Theme of General Coleman's address was that all citizens and corporations have definite responsibilities as good citizens. Southern Bell is living up to its responsibilities of good citizenship, he told them, by working hard to supply the telephone requirements of our rural areas as fast as possible.

Henry Grady Turner, of Atlanta, Georgia, Southern Bell Assistant Vice-President, said the telephone company plans to spend a total of 2½ million dollars for rural telephone expansion and improvement in Mississippi this year. "We are on time with our schedule," he said, "as we have already completed projects costing a total of about half the amount set up for the year."

Sponsors of the affair were the citizens of Walnut and the neighboring communities served by the new telephone facilities.

R. T. Ward, Superintendent of the Walnut Consolidated High

gram was made and broadcast over the facilities of Radio Station WROX, Clarksdale at 8 P.M. following the celebration.

According to E. R. Jenkins, Clarksdale, Group Manager Southern Bell in this area, new rural telephone facilities which were placed in service this time represent an investment of more than \$50,000. The project required the erection of over 100 new poles and telephone lines were placed on several hundred other poles belonging to Tallahatchie Electric Power Association and the Mississippi Power and Light Company. This was made possible by a joint-use rental agreement form of arrangement which permits the telephone company other utilities to use existing poles where feasible by payment of an annual per pole rental.

All the new rural telephone facilities will be connected to exchange at Marks, Mr. Jenkins says, and will be considered of this exchange. The new monthly rates which the new customers pay entitle them to unlimited number of calls to other local telephone also connected to the Marks exchange without additional cost.

This Quitman County project according to James M. Phillips, Mississippi Manager for Southern Bell, is just one of more than 20 new rural projects which Southern Bell had planned for Mississippi this year. The Company already installed approximately half of the total of 5,000 telephones which it is estimating new rural projects planned for 1953 will provide for the needs of the state by the year

### BEAUTIFUL FORMAL TEA FOR VISITORS

The handsome home of Mrs. J. H. Oliver was the scene of a beautifully planned formal tea on Thursday afternoon of last week, when Mrs. J. H. The refreshments featured a white and pink color scheme, and consisted of anchovy paste pastries, individual white cake with pink rose buds embossed on each, a lovely silver tray centered by a large candied pink rose, held pale green mints.

#### YOUR ELECTRIC FRYER

1. Use high grade fat—vegetable shortening, salad oil or peanut oil. Frying is done at high temperature which these fats stand without smoking and deteriorating.
2. Have fat at the right temperature when frying—when too hot, it scorches the food, and spoils the fat. If it is too cool, the food becomes soaked with fat.
3. When frying a very small amount of food in the electric fryer, the product will brown more rapidly than when frying a capacity amount. Overcrowding causes a soggy poor product, so be sure to have a good circulation of fat around all foods fried in your electric fryer.
4. Carefully lower the heated fry basket into the preheated fat. If fat boils excessively, raise the basket enough to avoid boiling over. When fat has settled sufficiently, lower basket all the way. Foods containing a high percentage of water, like fish and chicken should be dropped into the fat a piece at a time.
5. To keep the fat in good condition to use over and over with all foods, drain it off when cool, straining through several thicknesses of cheesecloth. Then wipe fryer clean of cracklings. In cool weather the fat may be stored in the fryer ready for use. The fat will stay in peak condition longer if stored covered in its original container in the refrigerator.
6. Occasionally clean the fryer thoroughly. Boil 1 tablespoon of nonacidic detergent in water in the fryer for 10 minutes. Then scour with a steel wool pad if necessary; rinse and dry. Do not immerse fryer in water.

Croquettes. Cut stale bread into 1/2 inch cubes, removing crusts first if desired. Fry in fat at 365 degrees until golden brown. Drain on absorbent paper. Serve on creamed soups.

Hush Puppies. 1 cup coarse cornmeal, 1/2 cup sifted flour, 1 1/2 tps. baking powder, 3/4 tsp. salt, 1 Tbsp. sugar or 2 Tbps. minced onion, 1 egg, 2 1/2 cup milk. Sift together dry ingredients. Beat egg; add milk and add to sifted dry ingredients, stirring as little as possible to get a well mixed product. Drop by teaspoons into 360-370 degrees fat until golden brown. Drain on absorbent paper and serve very hot with fried fish.

VARIATION: Use 1 cup less 2 tablespoons cornmeal, 1/4 cup wheat germ, and 3/8 cup sifted flour instead of the above amounts of cornmeal and flour.

Cheese Puffs. 1 Tbsp. flour, 1/2 tsp. salt, Dash of red pepper, Fine dry crumbs, 1/4 tsp. paprika, 1 1/2 cups grated sharp cheese, 3 egg whites. Mix flour and seasonings and then mix with cheese. Beat egg whites until very stiff. Fold cheese mixture into beaten whites. Cover bottom of shallow baking pan or a piece of wax paper with about 1/4 inch of fine crumbs. Drop small spoonfuls of the cheese mixture into the crumbs. With two spoons turn each bit to form small balls 3/4 to 1 inch in diameter. Place a layer of the balls in the bottom of the heated fry basket and lower into deep fat heated at 350 degrees. Fry until golden brown. Drain on absorbent paper. Serve hot.

Grenada County I have been regularly employed most of the time, have kept all parole regulations, and I have not violated the law. I am now respectfully petitioning the Governor of the State of Mississippi for a pardon in accordance with the law. This petition is filed with the knowledge of the State Parole Board.

Respectfully,

Progress in science has not been without opposition. Ignorance, superstition, and reluctance to accept the new frequently have impeded advance. Use of an anesthetic to ease the pain of childbirth was once decried by a clergyman, who called it a decoy of Satan. An eminent physician rejected the explanation of childbed fever when it was revealed that unclean hands of attendants spread the disease. Jenner, Lister, and others endured crushing ridicule and criticism. The vast assortment of life-giving drugs available today represents the contributions of the world's great medical scientists, past and present — enduring monuments to their courage, conviction, and intellect.

I recall an incident about Grenada  
Industries that many people have  
forgotten. Back about 1934, there be-  
gan the dickering that ultimately  
resulted in the industry being estab-  
lished here. A committee, composed  
of what was then "little" J. B. Per-  
ry, W. E. Jackson, Mayor E. C. Nea-  
lly, now dead, and the writer. We  
went to Dalton, Georgia, to sort of  
"spy out the land", where Real Silk  
interests had an operation similar  
to the one contemplated here. Pri-  
marily, since we knew nothing a-  
bout the technical side of the oper-  
ation, we talked to the "men on the  
street", barbers, clerks, waitresses,  
seeking to find out what folks thought  
of the folks who ran the mill. We  
got good reactions about the oper-  
ation, and came back to Grenada  
and reported our findings and recom-  
mended that Grenada go ahead. Since  
I ran the only newspaper then in  
Grenada - the old weekly Sentinel -  
I had the biggest voice in that  
most folks then took and read the  
old Sentinel, I wrote a good piece  
about that trip. My associates on the  
trip TOLD of their favorable reac-  
tions. Personally I have never had  
regrets, but happiness, that we four  
were one of the many instrumental-  
ities involved in getting Grenada In-

Speaking of Perrys reminds me  
that Martha Jane, editor and owner

she now calls Eupora home.

It is merely a coincidence, of cour-

ing, a crew, from the city's force,  
cleaned out the fish pool and fixed

the waterless fountain.

I'll bet one thing: if they put  
Juchheim in charge of that pool, he  
will see that it is KEPT clean like  
he did about keeping the flag "up."

## Ever see the office on a fast freight train?

Here's the office of the man who runs the  
show. Like the skipper of a ship, the freight  
conductor has charge of his train.

His is the responsibility of watching  
over as many as 75 to 100 cars of valuable  
freight. His office is inside the familiar red  
caboose at the rear end of every Illinois  
Central freight train. With him aboard the  
train are usually four other men, the engi-  
neer, fireman and two brakemen—one rid-  
ing in the locomotive cab with the engineer  
and fireman, the other in the caboose with  
the conductor.

A train crew like this is the focal point of  
the most economical transportation system  
yet invented, a system costing the Illinois  
Central hundreds of millions of dollars that  
carries freight for an average of only 1 1/4  
cents per ton mile. Low cost transporta-

**TRUTH** - a five letter word meaning "being according to fact - Reality - right - righteousness". Also "when one tells the TRUTH, he tells what actually happened, what he really thinks, or what he sincerely feels."

We cannot think of anything more needed in this present day world than the TRUTH. If individuals, corporations, and nations would begin at once to tell the truth and nothing but the truth in all their relationships with one another, we would be able to erase from our minds and hearts almost every concern and every problem facing us, Isaiah told his people 700 years before Christ, "... and judgment is turned away backward, and justice standeth afar off: for truth is fallen in the street ..."

Just think of it. If the Commies the world over would believe in our TRUTH that we are not trying to dominate the world, that we are NOT planning aggression upon any

people large or small, that the truth is all America wants is peace and happiness for all people, then if the Communist leaders would only tell us the truth about their plans and ambitions, and if politicians the world over would state the truth to their constituents, and each individual would tell the truth and respect the truth in every business deal, we all could go to bed tonight with relaxed minds and easy hearts and life would be so much better for all. What a price to pay for the privilege of falsehood and deception. It is said there is a scarlet thread running through every bit of rope made for the British navy to remind Bristish sailors around the world of the supreme power of the king of England. Well, every living person ought to revere, regard and respect the immeasurable power for good in TRUTH and wherever seen or heard, we should take off our hat and salute it most reverently. Jesus, who is called Truth, once said "And ye shall know the truth, and the truth shall make you free" If the Son therefore shall make you free, ye shall be free indeed."

It is written in our law that when a person approaches the witness stand in our court rooms, he must repeat these words "I solemnly swear to tell the truth, the whole truth and nothing but the truth so help me God." Well, why make this requirement only on witness stands why not

follow those ethics every day in whatever we do or say? Is it too much to expect of a person to refrain from telling lies, and just tell the truth instead?

Insurance companies spend thousands of dollars securing confidential reports about what persons have said were the truth, but the companies know they cannot believe all their statements so they check up on them and find many untruths ... yes, many, very many. I believe, telling the truth becomes a habit the same as telling lies becomes a habit. If one would examine the power and the glory and the wholesomeness in the good old TRUTH they would begin to love the truth and would never spoil their good record again by telling lies. The more times you tell the truth the more you love the way it sounds, and of course lies are like all other sin they are progressive. One calls for another.

Our own children were just as good and as bad as any normal kids, but I do not believe little Gerry or little Sonny ever told us a lie. I hope they never did. I honestly believe they never did. Bless them! "The lip of truth shall be established forever" but a lying tongue is but for a moment.

I hope the readers of this column will also find and read another little piece in this paper entitled "Easy on The Heart-Strings" which we are privileged to write for you and for other papers. The purpose of them is to help us all find a better way to treat one another, say nicer things and praise rather than criticize. Read Proverbs 15:1.

**Putting Down Roots in Mississippi**

Not many years ago Mississippi had millions of acres of desolate, cut-over land ... ill suited for the growing of row crops. These useless, unproductive acres contributed almost nothing to the income or future stability of the state.

But this picture is changing. Enlightened groups and individuals — in cooperation with the Mississippi Forestry Association — have encouraged Mississippi farmers and land owners to reforest millions of these acres of privately owned land.

With idle acres at work growing trees ... Mississippi's wood using industries are assured of a future source of supply. As a result, these industries are becoming more deeply rooted to their adopted locations.

Most citizens are conscious of the contribution our forest industries are making to the economic welfare of Mississippi. They also know that the future expansion of our forest industries can be encouraged in an atmosphere of fair and friendly cooperation on the part of this state and its citizens.
